Yuri Potawsky

Geographer

EXPERIENCE

Aug 2022 – Present
Esri
Product Manager: Imagery
A results-oriented product manager focused on the continued development of a comprehensive imagery system for Esri users. I am passionate about working closely with both internal and external stakeholders in driving the Imagery offering forward.

May 2019 – Aug 2022
Esri
Solution Engineer
I was a client facing geospatial engineer who provided governments with the GIS tools they needed to be successful.

Jan 2017 – Apr 2019
Esri
Desktop Analytics Group Lead
I was both the managerial and technical resource lead for the team.

Oct 2012 – Jan 2017
Esri
Senior Desktop Analyst
Exposure to the entire GIS lifecycle was crucial where I specialized in analytical processes against raster and 3D data.

Nov 2010 – Oct 2012
US Department of Defense
Geospatial Intelligence Officer
Provided direct support to multiple military and domestic agencies. Imagery and geospatial analysis products were produced for a variety of customers.

EDUCATION
